

Renter's Insurance

What Does It Do?

Renter's insurance protects you, the tenant, against the loss of your possessions in the event of theft or damage. It also covers you in the event you're found responsible for damages to others and/or their property.

Why Do I Need It?

- Because you care about your stuff and your financial future.
- Because, in the event of fire, theft, or other loss, you could not afford to replace your damaged property.
- Because, in the event you are found legally liable for damages to others and/or their property, you could not afford to pay and expensive settlement.

Good to know: if you have a parent with home insurance in Canada, you can most likely be added as a rider. Contact them to have your parent(s) check with their provider. Once you have confirmed coverage, just send us a copy of the agreement OR a letter from the provider noting that you are covered so we can update your tenant file.
